

New Alliance To Benefit FDI Agencies

December 1, 2010

Parter International, Inc. and **Global Consulting & Affiliates** are pleased to announce an important new alliance to assist economic development agencies with their search for Foreign Direct Investment projects.

By combining our Northeast, Mid Atlantic and Southeast U.S. networks of contacts, and our decades of experience serving FDI organizations from around the world, the Alliance will, on behalf of our agency clients, identify, qualify and develop trusting relationships with East Coast companies who are interested in:

- Establishing a first overseas facility;
- Expanding an existing overseas facility; or,
- Relocating an existing overseas facility.

Because of our expertise and network connections, we focus on identifying serious and quality projects in the following sectors:

- Aerospace, Defense and Security
- Automotive
- Bio and Med Tech
- Energy
- Environmental Technologies
- Financial
- Information and Communications Technologies
- Logistics

We invite you to contact us for specifics on how the program can work for your agency. Please contact:
